

About LEAF Ltd., developer of iVEE

LEAF Ltd., a private foundation and 501(c)3 nonprofit organization, developed iVEE to help in the resettlement of refugees and in the acculturation of immigrants who are not fluent in English. Since English is the language of the U.S. workplace, most newcomers need to learn English in order to succeed on the job.

LEAF Ltd. started their workplace literacy program in 2004. The program has been delivered to participants in partnership with non-profit social service agencies, the for-profit hospitality industry, and Continuing Care Retirement Communities.

Monetary donations to LEAF Ltd. are tax-deductible, but no part of the purchase price of iVEE programs is allowable as a deduction under current U.S. tax laws. LEAF does not accept grant applications or respond to solicitations.
